# 4-CARE

4-care is a flexible 4 channel monitoring tool. It gives you the possibility to make your existing offline sensor online and make your data accesible on I-see web-plarform !

## 4-CARE

PERFORMANCE	Number of channels	4 inputs: BNC/Flying Leads
	Sampling frequency	256 to 80 kHz
	Time waveform number of points	512 to 32 000 points FFT resolution 800 to 16 000 lines
PHYSICAL	Size and weight	65*65*59 mm;, 185g without sensors
	Case material	Polymer Components
	Mounting	Bracket/L Support
	Ingress protection	IP67
ELECTRICAL	Standard battery	Lithium Thionyl Chloride 3.6V 8.5 Ah
	Battery life	2 years with 4 expert measurements set per day
ENVIRONMENTAL LIMITS	Humidity limits	0-95% (non-condensing)
	Solvent resistance	Common solvent resistant
	Operating temperature	-20°C ≤ Ta ≤ 85°C
WIRELESS RANGE	Point to point	100 m distance, unobstructed
	Using range extender	800 meters distance, unobstructed

Wi-care™ and its product range are developed and produced by I-care sprl
